## TECHNICAL DATA SHEET CHAIN LUB BIODEGRADABLE

Ref. : 55400

### 1. GENERAL DESCRIPTION

Biodegradable Special Lubricant. Super Help New Biodegradable Chain Lub keeps chains, sprockets and bike crowns properly lubricated under all weather conditions. Reduces friction and prevents from corrosion. Thanks to its adhesive properties, it is water resistant, penetrates deeply into chain pin then sets to form an adhering, long lasting lubricating film. Studied for highly loaded fast running chains used in corrosive, high power and shock load conditions. Suitable to be used on all traditional kind of bikes and **perfect for E-bike**. The special straw supplied with the can enables - thanks to the double spray technology - two different spray ways: a precise application through the straw in order to reach even those tight and hidden spaces and - once the straw is positioned against the can - a greater spray coverage, thanks to the wide spray nozzle.

### 2. FEATURES

- Biodegradable.
- Resists hot and cold water wash-off.
- Resists high rpm sling-off.
- Reduces friction and wear.
- Reduces noise and vibration.
- Extends chain life.
- O-ring compatible.
- Harmless to metals and most plastics and rubbers (test before using on stressed plastic parts).
- Equipped with 360° special valve enabling the erogation of the product with the can in upside-down position and with a straw to reach even inaccessible parts for a better maintenance.
- The special straw supplied with the can enables - thanks to the double spray technology - two different spray ways: a precise application through the straw in order to reach even those tight and hidden spaces and - once the straw is positioned against the can - a greater spray coverage, thanks to the wide spray nozzle.
- Aerosols use butan-propane propellant to maintain high pressure to the very last fluid in the can.

### 3. APPLICATIONS

Long lasting lubrication and protection of:

- Chain drives.
- Sprockets and bike crowns, gear box.
- Open gears.
- Wire ropes.
- Pulleys.
- Conveyors.
- Tractors and farm equipment.
- Construction site equipment.

### 4. DIRECTIONS

- Shake can before use.
- Do not mix with other lubricants.
- Apply evenly onto the chain, wire rope, etc. and allow product to penetrate and set for a few minutes.
- Do not energise or start high speed/high load equipment before product has penetrated.
- Use with adequate ventilation.
- Do not apply while equipment is energised.

### 6. PACKAGING

aerosol : 24 x 400 ml

Bar code Nr. 8028687554007

Date : 01-07-2022
