TECHNICAL DATA SHEET TYRE REPAIR QUICK CONNECTOR

Ref. : 1100 QC

1. GENERAL DESCRIPTION

Super Help TYRE INFLATOR AND SEALER FOR BICYCLE WITH QUICK CONNECTOR.

All bicycle riders need to get such an easy and handy product with them. Not having an outside connector with hose, but an all-in connector is a true advantage to them. In this way they can place the can in their pocket or on the frame of the bicycle. Such a connector is an advantage even for off roads riders who tie the can to the frame of the bicycle, because it will remain clean being protected by the clear cap.

For repairing and inflating instantly, without dismounting the wheel every kind of tyre - with or without tube. It acts deeply into the tyre forming a special sealing film which ensures an efficacious repair. A rubber latex based aerosol product that re-inflates punctured tyres and at the same time seals the puncture. Super Help tyre repair is designed to give fast, temporary relief in emergency situations when changing a wheel with a flat tyre is inconvenient or even dangerous.

2. FEATURES

- Seals and inflates in a few seconds enabling to drive to a service facility for examination and/or replacement by a professional.
- Forms a stable, durable film inside the tyre. This inner protective film lasts far beyond the life of the tyre itself.
- Clean and easy to use on all types of tyres, tubed or tubeless.
- Aerosols use propane/butane propellant to inflate the tyre from flat (no pressure) to driving pressure.

3. APPLICATIONS

Tyre types:

- tubed
- tubeless
- radial
- suitable for PRESTA and WOODS valves (Not suitable for SCHRADER valve)

As used for:

- bicycle

4. DIRECTIONS

- If possible, remove the cause of the puncture.
- Shake well before use. In cold weather, warm the can with hands.
- Remove protective cap from the aerosol. Hold can upright. Insert the connector straight into the valve and push firmly. Continue until tyre is inflated. Disconnect.
- Immediately ride to allow the product to act.
- As soon as possible deflate tyre totally and refill tyre with compressed air to the prescribed pressure.
- Have your tyre examined by a professional and inform him about the use of this flammable product.
- Always pump some air into the tyre to prevent the valve from becoming plugged.

6. PACKAGING

aerosol : 12 x 100 ml

Bar code Nr. 8028687011005

Date : 15-01-2016
