TECHNICAL DATA SHEET SUPER FRESH – AIR CONDITIONING SYSTEM CLEANER

Ref. : 60150

1. GENERAL DESCRIPTION

The Super Help Super Fresh Air removes and prevents unpleasant odours, generated by the contamination of the evaporator in the air conditioning system by means of its special application method, leaving a fresh odor in the vehicle.

2. FEATURES

- No need to disassemble the airco system .
- Eliminates the contaminations from the evaporator and air conducts.
- Aerosols use butan-propane propellant to maintain high pressure to the very last fluid in the can.

3. APPLICATIONS

- All air conditioning systems in cars, trucks and agriculture machines, especially after a period of inactivity (winter).
- Can be used for caravan air conditioning system
- Also suitable for home air conditioning system

4. DIRECTIONS

- Shake the product well and place it upright in the passengers footwell.
- Switch on the engine and run the air conditioning at full power, set it to cold and recirculation with the dashboard venting fully open.
- Press the can activator.
- Close all car doors and windows.
- Leave the engine and the air conditioning running in the empty car (no passengers inside) for about 10 minutes.
- After the use, fully ventilate the vehicle with open doors, ensuring that the air conditioning is on full power and that the recirculation is off. Switch the engine off and leave the car doors open for about 15 minutes.
