TECHNICAL DATA SHEET
TYRE REPAIR

Ref. : 1300 – 1400 - 1500

1. GENERAL DESCRIPTION

Tyre repair: Super Help tyre repair.
A rubber latex based aerosol product that re-inflates punctured tyres and at the same time
seals the puncture. Super Help tyre repair is designed to give fast, temporary relief in emergency situations
when changing a wheel with a flat tyre is inconvenient or even dangerous.

2. FEATURES

· Seals and inflates in a few seconds ; enabling to drive to a service facility for examination and/or
 replacement by a professional.
· Forms a stable, durable film inside the tyre.
· This inner protective film lasts far beyond the life of the tyre itself.
· Clean and easy to use on all types of tyres, tubed or tubeless, on all automotive vehicles.
· Aerosols use propane/butane propellant to inflate the tyre from flat (no pressure) to driving pressure.

3. APPLICATIONS

Tyre types:
· tubed
· tubeless
· radial
· cross ply
As used for:
· cars
· trucks
· busses
· motorcycles
· bicycle

4. DIRECTIONS

· If possible, remove the cause of the puncture.
· Shake well before use. In cold weather, warm the can with hands or in front of the car heating system.
· Screw nozzle firmly onto tyre valve.
· Remove protective seal from aerosol. Hold can upright. Press button to fill tyre. Continue until tyre is inflated. Disconnect.
· Immediately drive 5 to 10 km, at moderate speed to allow the product to act.
· **As soon as possible deflate tyre totally and refill tyre with compressed air to the prescribed pressure.**
  Have your tyre examined by a professional and inform him about the use of this flammable product.
· Always pump some air into the tyre to prevent the valve from becoming plugged.

6. PACKAGING

aerosol : 24 x 300 ml - 12 x 500 ml
