TECHNICAL DATA SHEET Multi Purpose Cleaner - Sanitizing Spray

Ref. : 315

1. GENERAL DESCRIPTION

Super Help **MULTIPURPOSE CLEANER - SANITIZING PRODUCT** cleans and sanitizes surfaces, interiors, objects, air conditioning systems, cars, ambulances, taxi, motor-homes, public means of road and water transport. Perfect for cleaning and sanitizing crowded places such as waiting rooms, gyms, offices, shops etc.

2. FEATURES

- Handy product, provided with a special "one shot actuator" which allows, when needed, a partial product release or a total spray release (firm touch on the valve until it is locked)
- No need to disassemble the aircond system .
- Aerosols use butan-propane propellant to maintain high pressure to the very last fluid in the can.

3. APPLICATIONS

- For surfaces, interiors, objects, air conditioning systems, cars, ambulances, taxi, motor-homes, public means of road and water transport.
- Perfect for cleaning and sanitizing crowded places such as waiting rooms, gyms, offices, shops etc.
- For all air conditioning systems in cars, trucks and agriculture machines, especially after a period of inactivity (winter).
- For home air conditioning system.

4. DIRECTIONS

- For cleaning and sanitizing small surfaces & objects such as tables, doorknobs, light switches, handles, desks, phones, keyboards, toilets, sinks, etc light touch on the valve (for a partial product release) to spray directly on the parts to be treated, wait till the product is dry and wipe out with a lint free cloth.
- For cleaning and sanitizing crowded places such as waiting rooms, gyms, offices, shops etc, when a total spray release is needed:
Place the product in the middle of the room, keeping doors and windows closed. Firm touch on the valve until it is locked. Do not stay into the room! If available, the air conditioning system must be switched on. Allow the product to act for at least 15 minutes. Open the windows and aerate for at least 30 minutes.
- For cleaning and sanitizing vehicles:
Start the engine and turn on the air conditioning, blowing full power in re-circulation mode.
Open all vents and make sure that all windows are shut.
Place the aerosol in the footwell of the front passenger seat, making sure that the aerosol locking valve is positioned towards the centre of the vehicle.
Depress the locking valve until it remains securely locked for a total release.
Doors must be closed. Wait for the spray can to be empty, allow the product to act for at least 15 minutes.
Aerate the car interior for at least 30 minutes.

Hazard pictograms:
